

JEFFREY CLINTON

PROFESSIONAL CURRICULUM VITAE / LEADERSHIP, TECHNOLOGY AND INDEPENDENT RESEARCH

Florida • cpx.agency/contact/ • credly.com/users/chyphnx • github.com/OnlyClinton/CHYPHNX

Commercial operations and regional leadership professional with a parallel founder-led research practice in cybersecurity, identity, technical assurance, decision systems and commercialization. The two strands connect customer needs, operating discipline and implementation evidence.

LEADERSHIP, OPERATIONS AND COMMERCIAL EXPERIENCE

SolarCity | Field Sales → Regional Leadership · 2013–2016 | *Northern California*

- Directed field-team routines across Northern California territories: recruiting, onboarding, performance coaching, staffing and local execution.
- Used territory activity, sales-pipeline review and cross-functional handoffs to connect field targets with customer delivery requirements.
- Territories discussed in the historical career record include Stockton, Fresno, Sacramento, Chico and surrounding markets.

Vivint / Platinum | Area Sales Management · *Prior career*

- Recruited, trained and supported direct-sales field teams across security customer acquisition and installation handoffs.

Sunrun | District Management · Retail Field Operations · *Prior career*

- Managed store-level team activity, partner liaison, scheduling, field audits, performance reviews and reporting to senior sales leadership.

CPX Agency / CHYPHNX | Founder · Independent venture & research programs · *Current*

- Develop portfolio strategy, requirements, stage reviews and public-safe documentation across independent security, mission-intelligence, human systems and commercialization workstreams.
- Review project boundaries, release evidence and identity/security requirements; separate internal proofs from externally validated capabilities.

TRAINING AND EDUCATION

IBM Cybersecurity Analyst Professional Certificate, documented through 2023 Credly transcript and Coursera specialization evidence. Source-linked training spans IT fundamentals, security analysis, AI, data science, quantitative modeling, digital strategy, machine learning and decentralized finance.

University of Maryland Global Campus — cybersecurity and data-science studies reported in progress. University of South Florida and Hampden–Sydney College — prior coursework. No completed degree claimed.

JEFFREY CLINTON

SELECTED RESEARCH, DEVELOPMENT AND PROGRAM PORTFOLIO

Florida • cpx.agency/contact/ • credly.com/users/chyphnx • github.com/OnlyClinton/CHYPHNX

Project roles are described as founder-led coordination, architecture, research and program development. Repository status labels refer to code and documents—not customer adoption or independent third-party assessment.

GHOSTsuite / security product family | Draft product program

Six distinct privacy/security product concepts; public positioning, audience segmentation and product program framing. Source: <https://github.com/OnlyClinton/CHYPHNX/pull/58>

GHOSTaccess / identity & local recovery | Draft implementation and QA

Android-first, noncredential identity UX plus synthetic negative recovery/security checks; no real federated SSO. Source: <https://github.com/OnlyClinton/CHYPHNX/pull/54>

CPX-FEDERAL synthetic boundary | Merged test-only source

Inactive default-deny development controls for synthetic federal-readiness scenarios. No authorized CUI intake. Source: <https://github.com/OnlyClinton/CHYPHNX/pull/48>

Public CPX Identity hub | Merged limited release

Noncredential identity landing and Android/offline launcher with explicit provider boundaries. Source: <https://github.com/OnlyClinton/CHYPHNX/pull/50>

CPX security/source-boundary controls | Merged source protections

Public/private/future-CUI information separation and fail-closed release checks. Source: <https://github.com/OnlyClinton/CHYPHNX/pull/38>

TRIDENT v4–v5 | Draft synthetic telecom-defense research

Signed simulated telemetry, conservative grouping and replay-window tests; no live carrier access. Source: <https://github.com/OnlyClinton/CHYPHNX/pull/60>

OMEGA decision evaluation | Draft deterministic research

Arithmetic invariant tests; not an investment return or live-trading claim. Source: <https://github.com/OnlyClinton/CHYPHNX/pull/15>

MissionGrid / BULLSEYE / THERON | Research and experience designs

Mission support, structured decisions and human-systems measurement concepts with maturity bounds. Source: <https://github.com/OnlyClinton/CHYPHNX/blob/main/cpx-agency-site/index.html>

JEFFREY CLINTON

COMMERCIAL PROGRAMS, CREDENTIALS AND SKILLS

Florida • cpx.agency/contact/ • credly.com/users/chyphnx • github.com/OnlyClinton/CHYPHNX

ADDITIONAL COMMERCIAL AND OPERATING INTERESTS

- CPX Agency: business architecture, portfolio positioning, public product surfaces, partner discovery and controlled publication across operating verticals.

SELECTED CREDENTIALS AND PROFESSIONAL LEARNING

- IBM Cybersecurity Analyst Professional Certificate — historical issued evidence dated 2023 (Credly/Coursera).
- IBM IT Fundamentals for Cybersecurity and Security Analyst Fundamentals specializations — source-listed completion URLs.
- University of Pennsylvania / Wharton — AI for Business; finance and quantitative modeling source-listed specializations.
- University of Virginia / IBM — Digital Strategy; Stanford / DeepLearning.AI — Machine Learning; Duke — DeFi specialization source records.

SELECTED COMPETENCIES

Regional and district operations; field-team coaching; consultative solar/security sales; market execution; technical partnerships; product discovery; requirements documentation; stage-gated delivery; software release evidence; access/security governance research; cryptographic-agility concepts; change management; stakeholder communication.

PROFESSIONAL EVIDENCE
